

# FOOTREST INFORMATION SHEET

Fully adjustable – both front and back • Packs flat for easy shipping & storage • Made in New Zealand from top quality materials – no plastic! • 5 year product warranty on all Footrests

## Designed with a focus on Quality

Fluteline footrests are manufactured in New Zealand from top quality materials. Solid aluminium legs combined with hand welded joints and high grade carpet makes these footrests built to last – the 120kg weight rating and 5-year warranty show we stand behind that statement.

## Reliable Adjustment

A simple screw mechanism made from solid aluminium means that height adjustment on all Fluteline Footrests is simple and reliable. Having all four legs adjustable allows for a greater variety of height and tilt combinations compared to footrests with a limited number of fixed settings.

### CURVED FOOTREST:

**Board Size:** 1000mm x 260mm

**Weight Rating:** Leg support for people up to 120kg

**Adjustable Height/Tilt Range:** 70mm – 185mm
